

ARISTOCRATS

IN the realm of feminine footwear there are many makes of shoes, but among them all one alone stands out boldly and conspicuously ---instantly distinguished by its superlative elegance and exclusive beauty.

And that shoe is the

PATRICIAN
Shoe for Women

The superiority of "Patrician" is made up of many small perfections. All the good qualities of other shoes are concentrated, so to speak, in these "blue bloods" of the shoe family.

"Patrician" models are more than "stylish" ---they create and lead the styles. They are more than "pretty" ---they possess a beauty and grace of outline that is distinctively their own.

Is it any wonder that, among women who are themselves aristocrats, "Patrician" should have won for itself the title, "The Aristocrat of Feminine Footwear".

The Prices of Patrician Shoes Are

\$3.50, \$4.00 and \$5.00

There are over sixty different Patrician styles from which to choose, including the newest and most popular leathers and fabrics, in combinations to harmonize with every costume.

If you regard the appearance of your feet you will not delay to make the acquaintance of Patrician Shoes.
